Diamond Brazed Tooling

Troy Industries Diamond Brazed Tooling offers excellent finishes in the most abrasive of Fiber Glass or Carbon Fiber Reinforced Polymer (CFRP) applications. Ultra-abrasion resistant diamonds embedded onto hardened steel makes these tools extremely rigid and giving them an outstanding cutting performance. Cutter tips also have the Interloc Molduar System on them allowing the user to interchange these cutter tips to different holders and shanks.

Available in various cutting diameters and styles from:
ball nose, end mill, corner radius, chamfer, and so on. Contact us for more info.

Excellent for Cutting:

- Fiberglass
- Fiberglass PCB Board
- Carbon Fiber
- Metal Matrix Composite (MMC)
- Composites
- Carbon Fiber Reinforced Polymer (CFRP)
- Masonry, Brick, Stone & Concrete
- Glass, Tile, Porcelain & Ceramic
