ALTER TOOLS WITH INTERLOC CONNECTION:

The modular design of the "Interloc Drive System" gives you many benefits. You can alter your existing Weldon flat or cylindrical shank indexable tools to be compatible with Troy Industries Modular Interloc System. Troy Industries powerful quick-change modular tooling products allows the user to combine & interchange various lengths & cutter heads with one another.

Go Modular & Convert To The Interloc System

Why convert? To save & money by giving your existing cutters long or short reach capabilities. There is no need to repurchase that cutter in a special length or size.

Use Troy Industries modular Interloc indexable cutting tools or convert your existing indexable tooling to the modular Interloc System.

The modular design of the "Interloc Drive System" gives you many benefits:

- Build & create your unique custom tools with standard stock items
- A wide range of cutterheads, extensions, adapters, & holders available
- Create numerous long and short tooling lengths
- Infinite amount of modular tooling combinations
